

#018 Motivation corner

Dear boys,

Today it's all about **motivation** and **words of wisdom**

The four golden Ps to success

- **Prayers**

God says "Acknowledge all your ways to me and I will make straight your paths." We really need God's spirit to reign and dominate upon our lives so that we can thrive and succeed and above all that His will, may prevail upon our lives in Jesus name. Amen.

- **Perseverance**

Never despair, but take heart, no matter how hard the situation is embrace perseverance and you'll be on top of your game in no time gentlemen.

- **Persistence**

Keep pushing it boyo, it's all about going hard or going home. No more room for laziness and mediocrity but persistence and focus.

- **Pressure**

Learn how to operate and work under pressure, it will help you achieve your tasks in due time.

Don't be this type of person:

Many individuals are too lazy and weak to own responsibility and change themselves. They would rather cry, whine and blame others all day than change for the better. Trying to change them is never worth it.

#Avoidsuchpeople

Stand strong and still:

Men, it's high time we learned to stand our ground. Never change and be something you are not for the sake of others. Maintain those decent standards and don't you dare compromise for the sake of another human being.

They'll call you names but never mind, because truth is, they feel threatened by your way of life. Their life can't match yours hence are annoyed why you are always pushing hard and progressing instead of remaining in the same level they are. God for us all but everyone for himself remember.

Do realize that these kinds of people are walking red flags.
